

Participation in 2017 UITP Global Public Transport Summit in Montréal

17th May 2017

Nippon Signal shows its highly-advanced railway technology at the 2017 UITP Global Public Transport Summit in Montréal (UITP 2017) from 15th to 17th May in Montréal, Canada.

This UITP 2017 is a world-renowned public transport exhibition held every other year. The purpose of this exhibition is to encourage mutual understandings between urban transport carriers and industrial circles. The last exhibition took place in Milan, Italy in 2015 by welcoming over 10,000 visitors from 83 countries. Take a look at official HP for further information of UITP 2017.

Visit us in UITP 2017

Our concept for UITP 2017 is “Next Generation Solution of NIPPON SIGNAL”. Explore the latest and highest technologies of our products at Booth! Our pleasant sales staffs and competent engineers are waiting for your visit.
