

## Nippon Signal at Inno Trans 2018

August 9, 2018

Nippon Signal will showcase highly-advanced railway technology and the solution that contribute to safe and comfortable daily life for today and the future at InnoTrans 2018, the world's largest trade fair for the railway industry going to held in Berlin.

### Welcome to Inno Trans 2018

We will be introducing our CBTC “SPARCS” which is being used for a new railway project in India recently. Also we will be demonstrating the Laser Ranging Image Sensor utilized for object detection by platform screen door. Laser Ranging Image Sensor has also other applications which will also be explained in the booth. Furthermore, we will display the MSDAC axle counter, which is a collaborated product of Nippon Signal and G.G.Trionics India Private Limited.(\*)

At Inno Trans 2018, you can experience our products and technologies for the future solution. Meet us in Hall 7.2a, booth 100-07 !

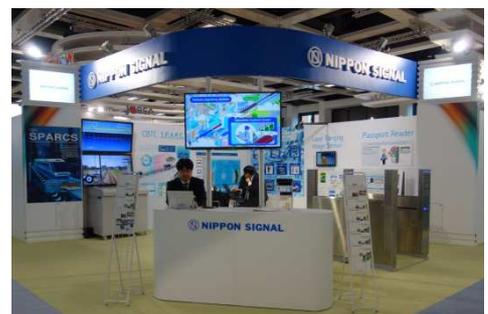

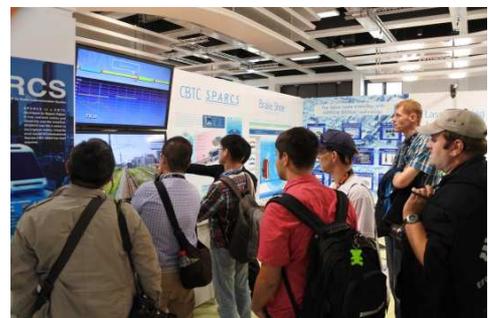

\* Nippon Signal has invested in G.G.Trionics India Private Limited to form strategic business alliance.
