

**We have obtained Railway Quality Management System (RQMS) Certification.**

March 12, 2020  
Nippon Signal Co., Ltd.

Nippon Signal Co., Ltd. (Headquartered in Chiyoda-ku, Tokyo1, President: Hidehiko Tsukamoto) has obtained certification of RQMS\*1 which is a quality management system for international railway industry.

The Association of the European Rail Industry published IRIS\*2 which is an evaluation standard of the quality management system to cope with the globalization in recent years of the railway industry in Europe. This is the industry standard established based on the “ISO 9001:2015” with additional requirements to meet the railway market conditions. RQMS is published by ISO\*3 as an international version of the standard, IRIS. Currently, certification of IRIS or RQMS has been issued to about 2,000 organizations in the world.

Nippon Signal has obtained RQMS certification in the scope of design, development and manufacturing of a railway signal system. Now that we have been accredited by the third party organization based on the globally recognized standard, Nippon Signal will endeavor to realize much safer and more comfortable society by operating our business successfully in the international market.

- \*1 RQMS (Railway Quality Management System): Published by ISO as ISO/TS 22163:2017 (TS: Technical Specification)
- \*2 IRIS (International Railway Industry Standard)
- \*3 ISO (International Organization for Standardization)

Certificate
